

# Facilities Coordinator

*Portland, ME - Full time - Posted August 28, 2026 - Reports to the Director of Operations*

## About the role

Lakeshore is growing from 48 to 60 buildings this fall and we are moving our cleaning, grounds and snow vendors onto portfolio-wide contracts. The Facilities Coordinator is the person who makes those contracts work day to day: scheduling, inspections, vendor scorecards and the monthly report our owners read.

## What you will do

- Own the vendor calendar for cleaning, grounds and snow across all buildings
- Walk 15 to 20 buildings a week and log common-area condition with photos
- Build and maintain a vendor scorecard: on-time arrival, missed visits, tenant complaints, resolution time
- Produce the monthly owner report on common-area condition and vendor performance
- Track tenant maintenance requests from intake to close and report response times weekly
- Hold vendors to the service levels in their contracts and escalate when they miss

## What we are looking for

- Two or more years in property management, facilities or field operations
- Comfortable with spreadsheets; you will be building the first version of our reporting
- A driver's license and a willingness to be in buildings, not at a desk
- Someone who notices a burned-out hallway bulb and does something about it

## Why now

Our tenants have told us, clearly, that maintenance response and common-area cleanliness are where we need to improve. This role exists to fix that.

Salary \$58,000 to \$66,000 plus benefits. To apply, email [careers@lakesharepartners.example](mailto:careers@lakesharepartners.example) with a short note about a time you held a vendor accountable.
