

Lakeshore Property Partners adds 12 South Portland buildings

FOR IMMEDIATE RELEASE - September 9, 2026

Lakeshore Property Partners takes over management of 12 South Portland buildings

PORTLAND, Maine - Lakeshore Property Partners announced today that it has been selected to manage a portfolio of 12 residential buildings in South Portland, bringing its total to 60 buildings and approximately 1,420 apartments across Greater Portland. The buildings, previously managed by the owner directly, include 280 apartments along Ocean Street, Broadway and Cottage Road.

"These are good buildings that have not had consistent attention," said Meredith Choate, Founder and Chief Executive of Lakeshore. "Our first ninety days are about the basics: the hallways, the entries, the laundry rooms, the grounds. Tenants notice that before anything else."

Tobias Renner, Director of Operations, said the company is consolidating its vendor relationships as it grows. "We are moving from a building-by-building approach to portfolio contracts for cleaning, grounds and snow, with reporting that an owner can read in five minutes. We expect to have those contracts in place for the fourth quarter."

Lakeshore will add two maintenance technicians and a facilities coordinator to support the new buildings. Management transitions on October 1, 2026.

About Lakeshore Property Partners: Founded in 2011, Lakeshore manages residential buildings for private owners and investment groups in Greater Portland, Maine. lakesharepartners.example
